

Division of Genomics Research
Seminar Series 2025

How to write scientific papers

Writing a paper is the final stage of scientific research. This seminar will focus on practical steps in manuscript writing, especially for students and researchers who are preparing a paper but do not know how to do it.

Contents:

- ◆ Basic structure of a paper
- ◆ Understand the rules of paragraph writing
- ◆ Paired structures found in good papers
- ◆ Do not forget a nice cover letter.

Date: Oct. 21 (Tue.) and 22 (Wed.) (Two-days course)

Time: 13:30~15:00 (for both days)

Place: Division of Genomics Research (Genome Center)
2F seminar room (#206)

How to apply:

Follow the link from our homepage bellow.
